

Dear Friends

We pray that this letter finds you well. We have had a busy few months since our last correspondence. God has been good and we are very encouraged with the progress of the work in Kampala and Europe.

We remain very grateful to you for your prayers and support. Thank you for your partnership with us.

In Uganda the Kampala Children's Centre will be opening in September. Arnold and his family will be going together with a team from Belgium and the UK. Their plan is to complete the furnishing of the houses, landscaping the gardens, erecting a fence and to begin training the house parents. Arnold will travel to the north of Uganda to select the first children who will come to the centre. Please pray for his safety and wisdom in this journey. Once the legal proceedings are completed, it is hoped that the children will move into the centre on the 1st September. It will be an exciting day for us all and we look forward to reporting back to you on our return in the autumn.

We have been encouraged by the many of you who have responded to the sponsorship programmes and pledged to support a child or to buy an animal for our farm. Many of the goats have given birth this summer and the goat house we built has quickly become too small!!

Some of our sheep and goats with their little ones!

Should you want more information regarding sponsorship of a child, animal or building please do not hesitate to contact Helen Da Costa at helendacosta@ndenetwork.com, or call 07930396373.

We thank God for the pledge of funds for another house and for a minibus. God is good! And so we are believing Him for a pick-up truck, computers and funds to cover administration costs both here and in Uganda.

In Europe, Arnold will be speaking at a several conferences and churches. He recently spent two weeks in New Jersey and New York, USA, and had a wonderful time.

He reports that God did miraculous healings both physical and relational. He is looking forward to going back in the autumn.

It has been a busy year of traveling for Arnold and the team but we have not forgotten our work here in the UK and Europe. God has placed His burden upon our hearts to continue to labour to see faith and prayer increased and His transforming power evident in our communities. We join with you in seeking His face for Europe at this time.

God bless you for your faithful prayers friendship and support..

Much love

Helen Da Costa
