A rising tide in the UK

During the past few months Arnold and the team have been travelling around the UK to many conferences and churches as he teaches on prayer and community transformation. And we are being mightily encouraged. There is the feel of a fresh and rising wave of prayer and desire in the nation to see the power of God in our communities in answer to our prayers.

And from the 6th-8th June NDE are holding a prayer and worship conference in Manchester where Arnold Muwonge, and other exciting speakers and worship leaders will be encouraging and helping us to surf the wave in the rising tide of what God is doing among us.

Please come and join us!

To register online please visit www.ndenetwork.com or call our office on 0161 282 1214

We look forward to seeing you there!

Progress at Kampala Children's Centre

The fourth house is completed and number five is on the way.

Letting our paintings dry in the sun at KCC!

AND.....next month construction of houses 6 and 7 begins.

...THANK YOU!

Thank you to all who have worked so hard fundraising during lent and given so generously. Our goal to house 100 orphans at KCC by the end of 2006 is in sight!

And with a growing number of energetic inquisitive children we need a school. We plan to begin building this summer for completion spring 2007. Friends in Birmingham recently completed a fun run

dressed as Batman and Robin to raise money towards the Kindergarten. And then Robin (a teacher) unwilling to remove his costume too quickly, spent a day at his school still in his disguise!

Join us in fundraising for the Kindergarten! Call or email us.

WANT TO VOLUNTEER AT KCC???

FANCY A TRIP TO UGANDA?

We take teams of volunteers with us to Uganda three times a year, during August, January and April.

Can you teach
English or
creative
arts.
Do you like
to garden, or
simply love
our
children????

If you would like to join a team and lend your skills for a couple of weeks please contact us by phone or email.

(Some longer term posts are also available if you are a teacher or health professional or have experience in animal husbandry)

Carpentry Workshop

We are planning to build and equip a carpentry Workshop at KCC. This will enable us to teach a skill to young men from the local town as well as older children at KCC.

We look forward to being able to make and sell beautiful furniture and proceeds will be channelled back into training and the Kampala Children's Centre!

WATER, WATER, EVERYWHERE!!

The first phase of our water project is nearly completed at KCC. An underground water tanker with a capacity of 40,000 litres has been built so that we can harvest rainwater. And we are in the process of raising money for Phase two – so that we can dig our own well and install solar panels for heating the water.

And the children of KCC say....

THANK YOU!

**To all of you who are
sponsoring children at KCC.**

20 more children are moving into KCC this summer we are looking for sponsors for the children and their carers. Please contact us if you would like to sponsor a 'mother' or child for £35 per month.

Finally...

Thank you for your prayers and partnership. You are a valuable and much appreciated part of our team!

All our love and appreciation
Arnold Muwonge & the NDE Team
